Projects

Foodelicious 🍷 2024

Developed a dynamic web application for a food restaurant featuring Home, Menu, About, and Cart sections to enhance user experience and streamline order processing.

Features:

- Interactive menu display with detailed descriptions and pricing.
- User-friendly cart functionality for easy order management and checkout.

Tech Stack & Tools: ReactJS, JavaScript, VS Code

Portfolio Website 🍷 2024

Built a dynamic website showcasing my professional skills, projects, work experiences and more responsive.

Features:

- Comprehensive sections for homepage, skills, projects, works and educational background.
- User-friendly interface with smooth navigation and visually appealing design.

Tech Stack & Tools: ReactJS, JavaScript, VS Code
